Hot-curing for
guaranteed quality!

What is THERMOBOX TH-80?

An ingenious diesel heating system, especially designed for house connection lines, which saves time and costs.

Advantages of THERMOBOX TH-80

- Ideal for hot-curing of inliner
- Digital temperature display
- Compact design
- Low maintenance
- Easy handling
- Lightweight

Technical data

Voltage	230 V / 50 Hz
Diesel heating	95 kW
Power consumption	400 W / 11 A
Output max.	1500 l/h at 6 bar
Temperature max.	95°C
Length	830 mm
Width	660 mm
Height, incl. handle bar	965 mm
Weight	approx. 130 kg

Accessories: mobile 3/2-way pump 1100 W

Features of the 3/2-way pump

- Mobile pump for filling and ventilating the system
- Pressure display
- Temperature display
- Connections: D couplings

Technical data

Power	1100 W
Voltage	230 V / 50 Hz
Pump output max.	83 l/min at 4 - 5 bar
Weight	approx. 23 kg

Accessories: water hose set

Features of the water hose set

- Hose cart for filling the system
- Hose cart for heating and sucking
- Connection hose pump / heater
- Circulation hose

Technical data

Filling hose	DN 19 / 25 m
Heating hose	DN 25 / 1 x 9 m
Suction hose	DN 25 / 3 x 10 m
Connection hose	DN 25 / 2 m
Circulation hose	DN 25 / 100 m
Weight	approx. 55 kg
